Dear *TS*,

RE: TENDER NO.MOEP/RFP/15/2013-2014 FOR THE DEVELOPMENT OF A 960MW COAL FIRED POWER PLANT AT LAMU, LAMU COUNTY, IN KENYA BY PRIVATE INVESTORS

Reference is made to your letter dated 30 June 2014 Ref: MOE/CONF1/1/17 VOL.18, submitting a Tender Evaluation Report on the above stated tender to the PPP Committee for approval.

This is to inform you that this matter was received and considered by the Committee at its 4<sup>th</sup> meeting held on 15 July 2014. In its deliberations, the Committee noted a number of issues that need to be addressed to enable it exercise its statutory mandate of granting an approval on the named Evaluation Report.

In particular, the Committee noted the following -

1. The financial reasons for disqualifying the two bidders are not readily identifiable in the Report - the technical and financial considerations need to be explained better, and in a way that explains why variance between read-out details during financial bid opening and what was subsequently verified by the Evaluation Team operates to qualify a financial offer as non-responsive.
2. In addition, the Evaluation Report does not clearly lay out the narrative of the problems that supported a need for clarifications, the outcomes of the clarifications and how those outcomes impacted the project from a financial and technical perspective.
